# **“IMPLEMENT SMART” JM NORWAY, FROM PLYWOOD TO IPG PROTECTIVE UNDERLAY!**

# WE EXPERIENCE THE **HMS FLOOR**..

”..as a highly positive aspect of our logistics during transportation”.

Morten Trosterud, JM NORWAY

## WE HAVE ALSO **CONDUCTED TESTS..**

"This protecting floor has tackled uneven surfaces, rain, snow, and ice with ease. It has successfully handled it all, and we haven't received any complaints or issues from the test projects where we've used it."

Morten Trosterud, JM NORWAY

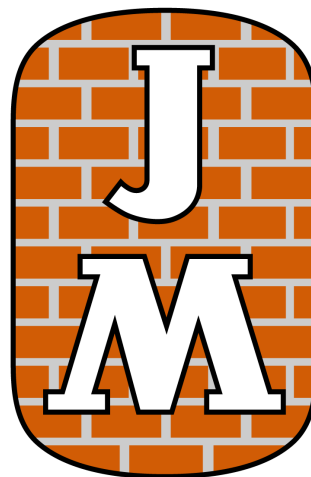

# THE FLOOR IS SECURELY **IN PLACE**..

---

..."Through winter and snow... We installed various floors in January in snowy conditions, and they still look just as good in June 2023."

# THE PROJECT WE TESTED..

**Bolig**

”...those who’ve tried this floor would rather have it now, instead of using plywood or plyfa.”

Morten Trosterud, JM NORWAY

# CONSTRUCTION **SITE**

“Flexible Floor is your ultimate solution for a robust, versatile, and effortlessly installed ground protection system that stands the test of time. Our innovative floor comes in two models, Light Duty and Heavy Duty, offering you the perfect fit for any project.

Featuring a hexagonal design, it delivers unparalleled strength with six-directional interlocking, allowing you to cover surfaces of any shape or size seamlessly.

What sets Flexible Solid Floor apart is its ability to be rapidly deployed with minimal ground preparation. Say goodbye to the hassle of time-consuming setups and hello to a quicker, more efficient solution for your ground protection needs. Make the smart choice today and experience the difference with Flexible Floor.”

# SECURE YOUR VALUABLE **EQUIPMENT...**

A photograph of the interior of a large, modern warehouse facility. The space is vast and open, with a high ceiling supported by a complex network of white metal trusses. The walls are made of translucent, white fabric panels that allow natural light to filter in. The floor is a dark, textured surface, likely the 'Flexible Floor Solution' mentioned in the text. In the background, a large opening in the wall reveals a bright outdoor area with green trees. A person is standing near the opening, and a ladder is leaning against the wall. A blue rectangular overlay is positioned on the left side of the image, containing the text 'Secure your valuable equipment in warehouse facilities' in white.

Secure your valuable equipment  
in warehouse facilities

"When it comes to safeguarding your precious equipment in warehouse facilities, our flooring solution is your ultimate choice. Engineered for strength and durability, our flooring provides the perfect foundation for storing high-value assets.

With its robust construction and reliable performance, you can trust our flooring to protect your investments day in and day out. Don't compromise on the safety and security of your valuable equipment. Elevate your storage capabilities with our Flexible Floor Solution today."
